Estimate based on Epson test standards: ISO18930 using 100% ink duty. Does not constitute a guarantee or warranty to the longevity of printed images. Longevity of printed images may vary significantly depending on substrates, application, ink duty and environmental conditions. The estimate does not include prints made using Orange, White or Metallic Silver inks. Orange/white/metallic inks will be considerably less durable in outdoor conditions. Epson accepts no liability of any kind for fading or any other change in a print no matter how it is displayed.
